

# iPraktikum Summer 2018

## Info Meeting

## iPraktikum Summer 2018

In this course you develop a mobile application in the context of a larger system architecture. Depending on the project, you work with application servers, machine learning algorithms, smart sensors, intelligent clothing, wearables like the Apple Watch or micro-controllers such as the Raspberry Pi or the Intel Curie.

You get to know the workflows, activities and tools of state-of-the-art agile software development from requirements engineering to system delivery. In particular, you learn Apple's programming language Swift and gain hands-on knowledge in the fields of system modeling, usability engineering and continuous delivery.

For this course, industry partners provide real problem statements. You get real team and project experience while working tightly together with a real client towards a real deadline.

**Info Meeting**  
February 1, 4:00pm  
Interims Lecture Hall 2

**Registration**  
[www1.in.tum.de/ios](http://www1.in.tum.de/ios)

**Important Dates**  
Intro Course: April 3-10  
Kickoff: April 12, 4:30 pm

- ✓ Real clients
- ✓ Real problems
- ✓ Real data
- ✓ Real teamwork
- ✓ Real projects
- ✓ Real deadlines
- ✓ Real delivery

# Why us?

This is a challenging, but rewarding course! We have:

**R**eal clients  
**R**eal problems  
**R**eal data  
**R**eal teamwork  
**R**eal projects  
**R**eal deadlines  
**R**eal delivery

**I**nnovative  
**I**terative  
**I**ncremental  
**I**nteractive  
**I**nterdisciplinary  
**I**nternational  
**I**nternet of Things

# In this course you ...

... gain experience in all phases of an agile software development project

- Planning, Design, Implementation, Testing, Delivery
- Tooling: JIRA, Confluence, Bitbucket Server, Bamboo, Slack ...

... develop a system in a mobile context for the iOS platform

- In the context of a larger system architecture
- Your project can also include: application servers, sensors, wearables, micro-controllers, ...

... regularly deliver your apps to the customer

- Continuous Delivery
- Gather feedback from your customer and end users

... improve your soft skills

- Presentations for all participants and your customer
- Software Cinema and Software Theater: learn how to tell a story about your project

# Our expectations

Knowledge in object-oriented programming languages and paradigms (such as Objective-C, Swift, Java, C++, C#, )

Basic skills in Modeling and Software Architecture

You understand e.g. UML Class and Component Diagrams

Team player abilities

Our projects require real team work as well as communication with the customer.

High motivation

Challenging tasks require attention and commitment beyond a normal lecture. This course is worth 10 ECTS, plan your time accordingly.

# Important Dates

## Final Presentations Winter Semester: February 8, 4:30pm, Interims 2

- Client Acceptance Test of all projects with live demo and buffet afterwards
- We also have a livestream: <https://livestream.com/lis1intum/1718CAT>

## Intro Course: April 3-9 (Homework due April 12)

- Intensive course before the beginning of the Praktikum
- Introduction to Xcode, Swift, Git...

Attendance is mandatory.  
No excuses.

Please make sure you can  
attend sessions full time  
(exception: repeat exams)

## Kickoff: April 12, 4:30 pm, Interims Lecture Hall 1

- All customers present their problems
- Planned: ~10 projects with 6-9 team members

# Application Process

1

Express your intention by filling out the form at [www1.in.tum.de/ios](http://www1.in.tum.de/ios)  
Due: **February 14**

2

Log in to the [matching system](#) of the Informatics department and make sure to give the iPraktikum your priority  
Between: **February 9 - February 14**

3

You can check yourself if you have been matched to the course  
From: **February 21**

# Impressions

# Impressions

# Further information

Check our web site [www1.in.tum.de/ios](http://www1.in.tum.de/ios)

Get an impression of the projects

- Come to the Client Acceptance test next week
- Talk to the participants and customers at the buffet afterwards
- Watch the recordings of previous terms: e.g. [www1.in.tum.de/ios17](http://www1.in.tum.de/ios17)

For all other questions write an email to [ios@in.tum.de](mailto:ios@in.tum.de)
